Hello, folks.

I didn't get my regular letter off this Sunday. - But it's just as well. - I didn't know a thing to write, anyway! - And yesterday I definitely wasn't in the mood for I was in the thick of the North African and again! - I can usually look forward to one every 5 or 6 weeks it seems. - As can everyone else. - I recognized the symptoms earlier and the Doc had some improved medicine, so I came out of it much better than before. - I've felt almost normal today.

This afternoon I took my automatic completely apart! - Today I kept on pushing gadgets and had a whole slew of 'em! - However there were no extra parts left when I got it together, so guess I did it correctly! - After supper I went down to the wire bank and tried it out. - It sure works lot better than it used to! - I didn't do too bad shooting, either, for a city feller!

Things are sort of dull around here just now. - Fritz whom I usually pal around with, left for a trip yesterday. - He will be gone several days as it sorta leaves me to shift for myself. - He has gone to one of the biggest cities in Africa where they are supposed to have everything. I gave him some money and he is to pick up some souvenirs if he can find any worth while. - If he doesn't well, - think I'll get a chance to go there myself in 3 or 4 weeks - then we'll see! - Had a letter from both Fred & Brother yesterday - that's the way I like to see 'em come! - More next time, be good!

V---MAIL

Love, Frank
